(It was reported in another article that they swam the cattle across the Mississippi, and held on to the tails of the oxen in order to be pulled across the river.) They encountered very muddy conditions during the first part of their journey, making it necessary to use 4 to 5 pair of oxen to pull a wagon through some of the mud holes, and some of the party were considering abandoning the venture at that time. As they traveled farther West in Iowa conditions improved and the party continued. They crossed the Des Moines River at "Pelley, Iowa" (Pella? South East of Des Moines). They continued West to "Cainsville", near where Council Bluffs now exists. There the joined up with a wagon train headed by a Dr. Russell, who they knew. They crossed the Missouri River there by River Boat, and on the 15th of May headed West in a wagon train of 72 wagons.

The route they took led them on the North side of the Platte River as far what is now Columbus, Nebraska, where they crossed the River at "the Loop Fork of the Platt River". Here the river was a mile wide, and the oxen pulling the wagons needed to be led across the river so as to stay in motion and avoid sinking into the quick sand in the bottom of the river. Dr. Russell, their wagon train leader, died of cholera in this stretch of the trail, along with many others. The wagon train had split up, and the Forgeys were now traveling with a group of 10 wagons. They passed Lonetree and Chimney Rock, and arrived at Fort Laramie on June 13. Jane Milholland became sick of what was diagnosed as "mountain fever", but the Doctor in the group indicated that they should continue on, and that she would recuperate. James Forgey, in an interview printed in the Asotin, Asotin County, Washington Territory newspaper, *The Sentinel*, on November 11, 1892, recounted the tale of the journey of the five Forgey brothers and the others. The group departed Henderson County, Illinois on April 19, 1852, and crossed the Mississippi River at Burlington, Iowa. Her parents came from Ireland, My Mother at the breast, so she could say that she crossed the great heron pond, or the great briny deep, as the Irish would call it. They were strictly protestants." In religion Presbyterian. My Mother could sing or repeat a song that was composed before or at the time of the great battle of the bind waters between the Protestants and the Roman Catholic in the time of the bloody persecution.[0] She learnt it from her parents. I am vexed with my self that I did not make notes of it when I was young. I recollect but little of the poetry, it was a very striking thing." (Comment).*

4. FAMILY TREES

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

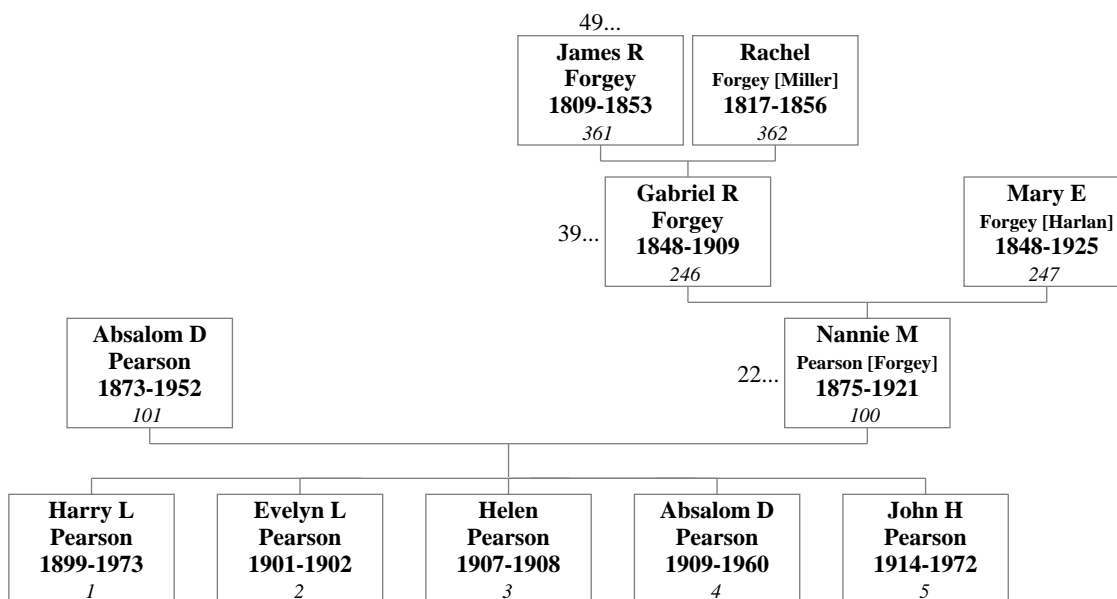

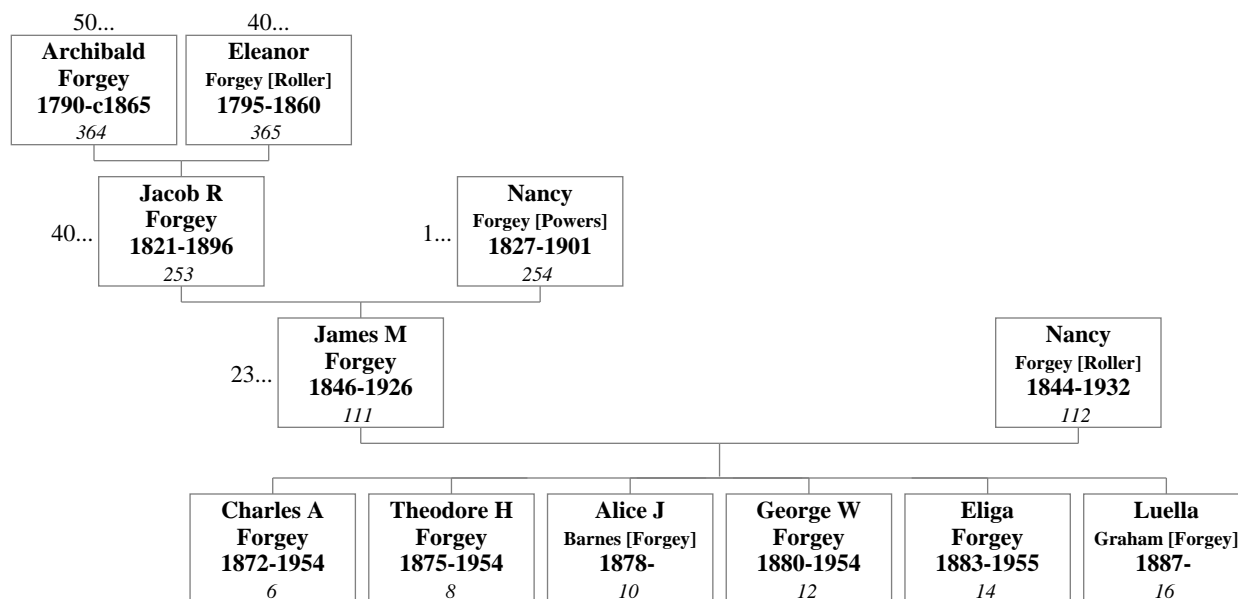

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.

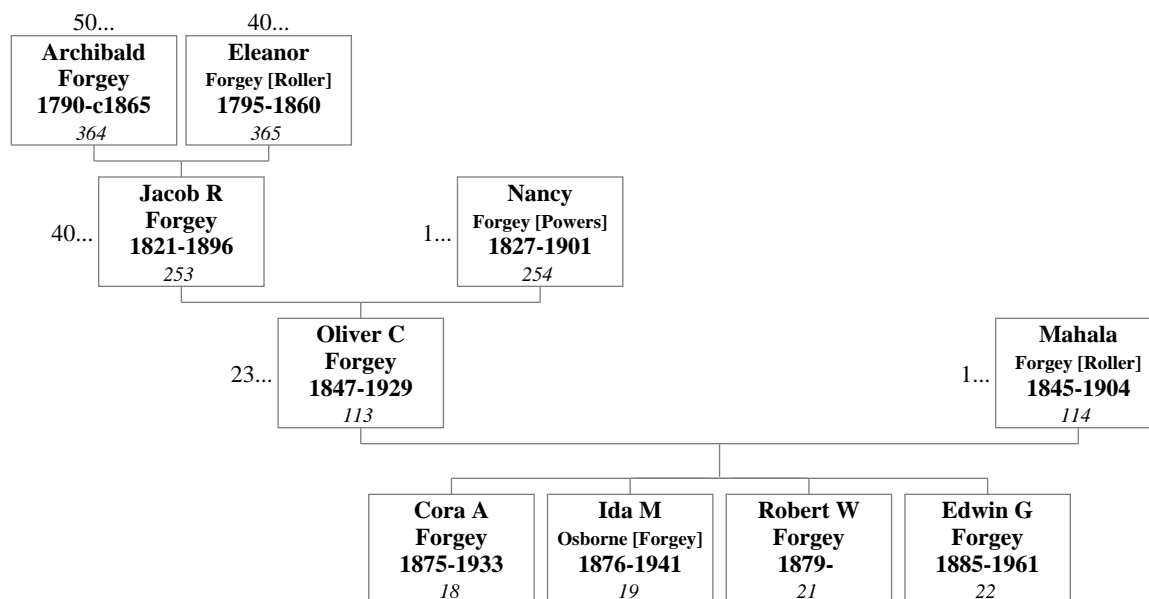

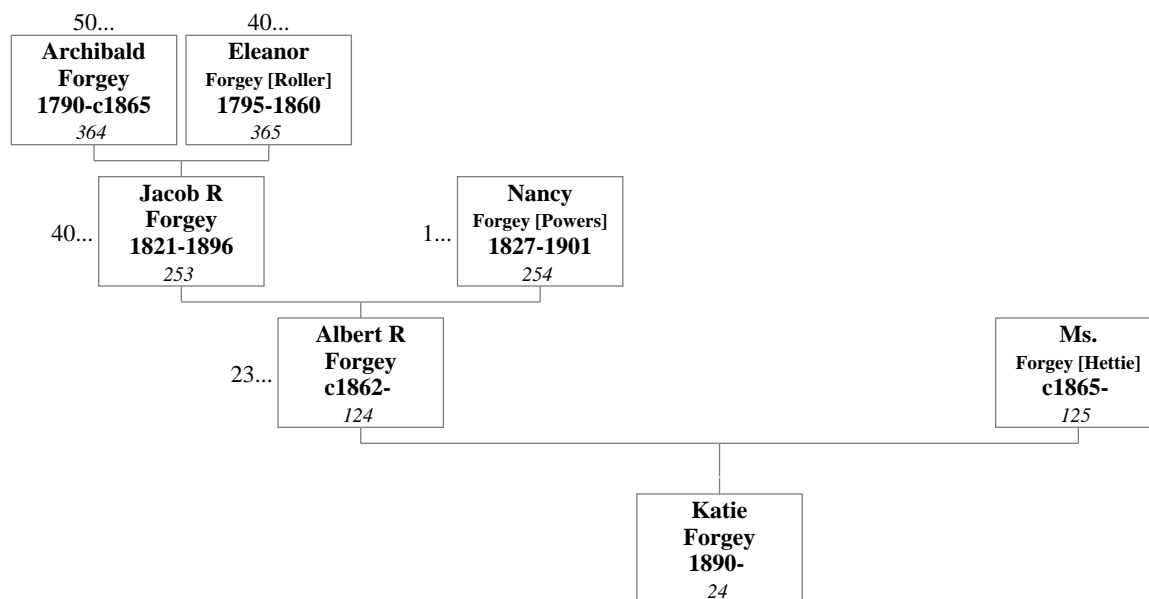

In cases of multiple marriages, a continuation reference number preceded by "=" is shown to the right of a parent box. This number references the previous and/or next tree in which that individual is shown with another partner.

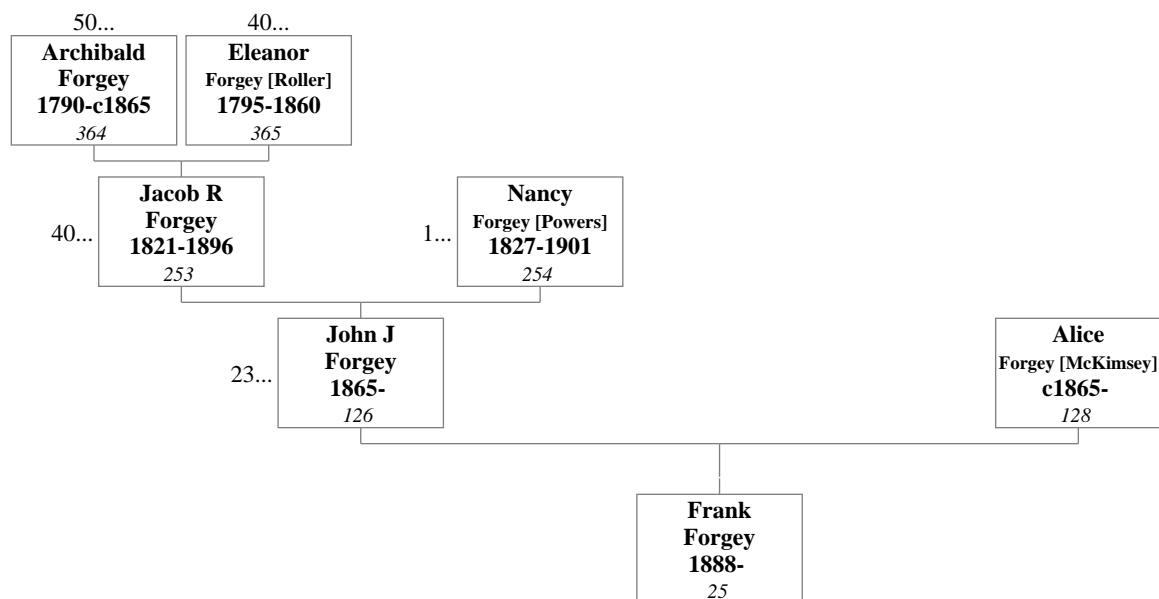

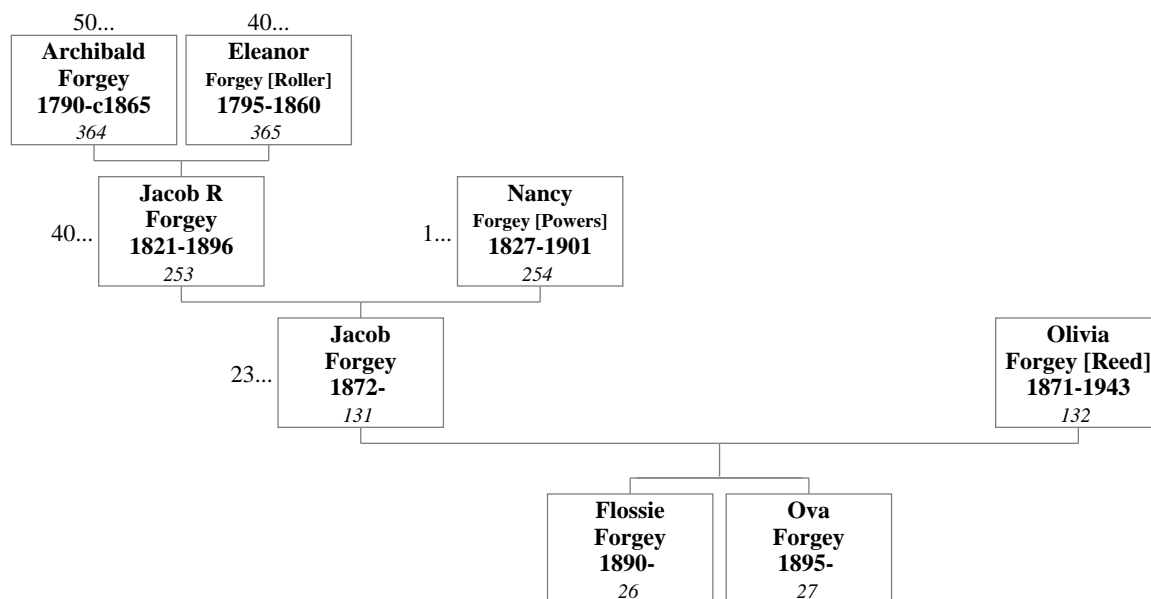

In cases of adopted (or fostered) children, the parental connection is shown with a dashed line and a continuation reference number preceded by "=" is shown within the individual's box. This number references the tree in which that individual is shown with his or her natural parents.
